Sixth Form open evening 2021

Coming soon after the autumn half term is the Sixth Form open evening for all year 11 students.

Cheltenham Bournside – 27th January 2022 – Keep an eye out for more details to follow on this after half term.

If your son or daughter would like more information on their future choices please send them to the careers hub in sixth form or email us at careers@bournside.gloucs.sch.uk

Harper Adams University

With half term fast approaching we wanted to inform you of a couple of events we have running during half term that might be of interest to your pupils and students:

Experience land and property management courses - 27 October 2021

Careers in surveying and land agency are exciting, challenging, and creative.

They suit those who enjoy talking and listening to other people understanding their problems and coming up with solutions that fit their needs and budget.

Surveyors and land and estate agents are, essentially, negotiators so our degree course will help you to develop this essential skill, as well as project management, communications, and understanding the issues affecting potential clients. As a student you will learn about valuation, land and property law, auctioneering, construction and surveying, property marketing, renewable energy, compulsory purchase, and utilities.

This free, on-campus event for 14 to 19 year olds presents the opportunity to experience Land and Property management courses at Harper Adams.

For the links to this event please contact careers.

Education projects medical webinar

On Wednesday, the 27th of October 2021 Education Projects will be hosting our first webinar for aspiring medical students of this academic year.

In this webinar, we will explain everything your students need to know about medical work experience; why is it important, what they need to learn from it, how to get it and how to reflect on their work experience. Work experience is an essential part of Medicine applications so it's crucial they understand every aspect of it.

Topic: Medical Work Experience - All you need to know

Date: Wednesday, October 27

Time: 07:00 PM (London time)

Registration Link: <https://educationprojects.co.uk/medical-work-experience-all-you-need-to-know/>

Admission: Free

If your students cannot make this time, the webinar will be available to watch on-demand on our YouTube channel the following day: <https://www.youtube.com/medicalprojectsofficial>

NHS Allied Healthcare Work Experience 7th November

Health Education England has recently completed a discovery report on virtual work experience programmes, that have concluded that these programmes are a valuable adjunct to in-person work experience, especially in our current climate where in-person experiences are extremely limited. The NHS Allied Healthcare Work Experience successfully invited 12,000 students to participate in the last academic year, making it the largest programme for students who are specifically interested in the following careers:

Nursing
Midwifery
Paramedicine
Physiotherapy
Occupational Therapy
Dietetics
Radiography
Prosthetics and Orthotics
Speech and language therapy
and Pharmacy!

Applications for this programme are now open, and they will be open throughout this academic year, with the next virtual work experience day taking place on the 7th November. Please forward these details to your interested students so they can participate in the monthly virtual work experience days. It is suitable for students in 10-13 or S3-S6 year groups.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and each other. Students will have an opportunity to ask questions and gain knowledge through teaching.

This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different, and students will be able to build on their knowledge of NHS careers as they see different patient cases and healthcare professionals work in a variety of settings, such as hospital and community.

Students will also receive certificates as evidence of having participated in the work experience programme. Those that complete the entire 6-month programme will be awarded with Highly Commended References too. Students can register individually through the website link below. **Places are £10 a day** to cover administrative costs and run the tech on the day. Schools can also register groups online. We have also provided a poster attached to this email.

- Please contact careers for the links to this event

Speakers for Schools - Opportunities for South West students who want to go to University

Are you interested in going to University? Do you need help choosing which course/ where to go/ how to write their personal statement? The below placements would be perfect for you...
