Applications open for

Economist Degree Apprenticeship

Over 60 vacancies available with the Government Economic Service

The Government Economic Service has launched their **Economist Degree Apprenticeship programme** for 2022.

Starting in **September 2022**, applications are **open now** for over **60 vacancies nationwide**, with departments such as the HM Treasury and the Department for Work and Pensions.

This is a brilliant opportunity to work in a central government department or agency on some of the most important social, environmental and economic issues our country faces.

Applications close on Monday 14th February at 11.55am.

Share the link below with your students to start their applications now.

A career with us means creating cleaner, faster, more competitive power. It means looking to the future, and shaping the world we live in.

As an apprentice, you'll have every opportunity to get involved in our ground-breaking work. We believe that diverse ways of thinking make for ever better ideas. That's why we give people with bold, curious minds the chance to be themselves. With us, you'll have all the support and training you need to bring your fresh perspectives to pioneering the power that matters.

Digital & Technology Solutions Degree Apprenticeship

When you start the programme, you'll move around Group IT and Digital as much as possible to get a breadth of experiences and develop a broad range of useful skills. This will compliment a host of introductory modules at university where you'll develop the theoretical foundations for a career in digital and technology solutions. Later in the programme you'll start to specialise into a particular role within the business which will help inform your university specialist module choices. While the programme has a defined structure there's lots of freedom to explore what you enjoy and develop new skills along the way.

Project Management Degree Apprenticeship

As a Project Management Apprentice, you'll be responsible for supporting or leading a range of different projects that meet customer and business expectations. These might include introducing new products or services, developing new facilities, or looking at the infrastructure for IT projects. You'll develop professional experience using world-class tools and processes, learning from supportive professionals as you work towards your qualifications. The ability to plan with integrated teams, manage risk and use data analysis to control and manage your project will become second nature – you'll be able to plan for every eventuality. Not only that, but you'll also learn who to involve in your projects and at what stage.

Kohler Mira Virtual Open Evening

With the announcement of Omicron just before Christmas, we are aware that some families and students may not have felt comfortable/able to attend our in person events on December 1st or January 19th. We would therefore like to offer a mini Virtual Open Evening to anyone that missed out, which we will be holding on Wednesday **2nd February** from **17.30pm-19.00pm**.

We will hold this on Microsoft Teams and students will be able to speak to a number of our apprentice managers and apprentices about our apprenticeships on offer for September 2022. We will begin with a short introduction into the company and then utilise the breakout rooms for students to find out more about their preferred apprenticeship route and what apprenticeships at Kohler Mira are truly like.

In order for us to send out the links to the event, please can I ask any student interested to complete the attached booking form.

ROYAL NAVY APPRENTICESHIPS VIRTUAL EXPERIENCE

When you start an apprenticeship in the Royal Navy, you're right at the beginning of an adventure that will take you all around the world. You'll be a valuable member of our team as soon as you join because you'll be learning on the job, making a vital contribution, and earning a competitive salary from day one.

Join us on Wednesday 9th February at 18:30 for our free Royal Navy Apprenticeships Virtual Experience. You can discover the wide variety of roles available, hear from our team about their Apprenticeship journeys and their advice. Along with this you will also learn about the benefits, world travel and how you can be empowered to make a difference – and supported to get further, faster.
