

## Parent Governor Nominees

There is one vacancy for the position, please submit your vote from the list of three candidates below via the link [here](#). Votes can also be submitted in person at main reception.

### 1. James Woodward

Having worked in leadership roles across the education and skills sector for the last ten years I hope I have some understanding of the school's challenges and opportunities.

I am currently Head of PR and Policy at BCS, Chartered Institute for IT, where our primary purpose is to promote digital education and skills, with significant involvement across the computer science curriculum.

Previously, I was Head of Media and Public Affairs at UCAS, the universities and colleges admissions service, in Cheltenham. I have also managed communications teams at Coventry University and the Royal Agricultural University.

I would be a committed, collaborative and positive member of the board with a strong interest in helping the school make the right strategic decisions.

### 2. Roderick Marshall

I am the father of four daughters, two at Bournside in year 9 and in year 7.  
I am a retired secondary school teacher.

I have previously been a Parent Governor with specific role as Vision and Values where I was involved in interview with the Ofsted inspector (result: GOOD), also worked with Anti-Bullying Quality Mark in their achievement of the Bronze award. I was involved with the purchase of land and also on the interviewing panel for T.A. candidates.

I have been DBS checked as I am currently working as a volunteer with The Rock children's charity.

### 3. Dan Eddie

My name is Dan Eddie and I have had two daughters at Bournside, one has now and the youngest is now in year 10 and getting ready for her GCSE's.

In terms of work, I am currently Customer Services Director at a healthcare company Simplyhealth. I lead a team of over 300 people within a hybrid working environment.

I have worked in senior / executive leadership positions across 5 different industries (financial, energy, healthcare, automotive) all of which have different degrees of regulation activity and governance processes and structures.

I have had 5 years of previous School Governor experience at Lakeside school, including helping them move to adopting a three form entry.
